InspereX

Sheena Jackson
City of Carrollton
1945 E. Jackson Rd.
Carrollton, TX 75006

Dear Sheena,

Thank you for the opportunity to reintroduce InspereX LLC, a limited liability company owned by Incapital Holdings LLC. At InspereX, we understand the unique challenges of managing public funds. Our focus on safety, liquidity, and maximizing yield within investment policy guidelines aligns perfectly with the City of Carrollton's investment priorities. We have a strong capital base, six trading desks that take risk and hold inventory, and market-making services to help provide liquidity for your positions if needed. Partnering with us, you benefit from investment solutions particularly tailored to the needs of government entities as well as our commitment to concierge-level service including daily market updates.

InspereX's core product offerings are a natural fit for the City of Carrollton, as we are a top underwriter of U.S. Agency securities and the #1 ranked underwriter for new-issue callable agencies in 2026. Our underwriting success is supported by a broad distribution platform serving public funds, broker-dealers, investment advisors, and institutional asset managers nationwide. This unique market presence provides valuable insight, robust order flow, and deep investor-issuer connectivity that ultimately benefits our public fund clients through strong execution and access to new opportunities. We are also highly active in bringing new-issue bullet agencies to market for date-specific portfolio needs. As a full-service public fund broker-dealer, we offer Agencies, U.S. Treasuries, Treasury Bills, Agency Discount Notes, Supranationals, and municipal bonds.

It would be an honor to once again serve the City of Carrollton, as we did previously under our former name, Incapital. Following our 2021 merger with a technology company and subsequent rebranding to InspereX, we have expanded the resources and capabilities available to our clients. In addition to traditional broker-dealer services, the City would have no fee access to BondNav®, our proprietary cloud-based fixed income marketplace and best execution platform, providing visibility into thousands of live offerings across asset classes and significantly enhancing access to market opportunities.

Sincerely,

Vicki Meyer

CFA, Managing Director, Institutional Sales

BROKER/DEALER CERTIFICATION

I hereby certify that I have personally read and understand the investment policies of the City of Carrollton (the "Policy"), and confirm that our firm has implemented reasonable procedures and controls designed to prevent our recommendation of investment transactions that are prohibited by the Policy or Section 2256.005(k) of the Texas Public Funds Investment Act. Investment recommendations provided by our firm to the City of Carrollton will be limited to investments that are permitted by the Policy and reasonably believed by us to not include recommendations of investment activities arising out of investment transactions conducted between the entity and the City of Carrollton that are prohibited by the investment guidelines.

All the sales personnel of this firm dealing with the City of Carrollton's account have been informed and will be routinely informed of the City's investment horizons, limitations, strategy and risk constraints, whenever we are so informed in writing.

This firm pledges to exercise reasonable care in informing the City of reasonably foreseeable material risks associated with financial transactions recommended by our firm. In addition to this certification, this firm will supply the following to the City:

1) Most updated Audited Financial Statements
2) Firm's Financial Industry Regulatory Authority (FINRA) Number
3) Broker's Financial Industry Regulatory Authority (FINRA) Number
4) Resumes of broker dealing with the City of Carrollton

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Member of InspereX LLC

Opinion on the Financial Statement – Statement of Financial Condition

We have audited the accompanying statement of financial condition of InspereX LLC (the "Company") as of December 31, 2025, including the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of December 31, 2025 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

The financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit of this financial statement in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

PricewaterhouseCoopers LLP

New York, NY
February 27, 2026

We have served as the Company's auditor since 2011.

The accompanying notes are an integral part of these financial statements.

INSPEREX LLC

NOTES TO STATEMENT OF FINANCIAL CONDITION
AS OF DECEMBER 31, 2025

1. ORGANIZATION AND NATURE OF BUSINESS

InspereX LLC (the "Company"), a limited liability company and wholly owned subsidiary of InspereX Holdings LLC ("the Parent"), is a member broker-dealer registered with the Securities and Exchange Commission ("SEC") as a broker-dealer under the Securities Exchange Act of 1934 ("Exchange Act) and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA") and a member of the Securities Investor Protection ("SIPC").

The Company is primarily engaged in origination, distribution, underwriting and education for fixed income market linked and ETF products through a tech-enabled, multi-channel broad distribution platform. The company serves a variety of markets such as, but not limited to, U.S. Agencies, Corporate Debt, Municipal Bonds, Brokered Certificates of Deposit, Mortgage and Asset Backed Securities, Preferred Stock, Closed End Funds, and Syndicate. The Company also enters into repurchase and resale agreements to finance securities activities.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates — The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Securities Owned and Securities Sold, Not Yet Purchased — Securities owned consist of securities underwritten by the Company or purchased in the secondary market. Securities sold, not yet purchased, consist of securities sold in the secondary market. Both securities owned and securities sold are reported on a trade date basis. They are reported in the Statement of Financial Condition at fair value based on quoted market prices, prices for similar securities, or prices based on models using observable inputs. Pricing inputs include US Treasury rates, credit spreads, and observable trades from both the Trade Reporting and Compliance Engine developed by FINRA and dealers.

Derivative Financial Instruments — Derivative financial instruments ("Derivatives") used for trading purposes, including economic hedges of trading instruments, are carried at fair value. Fair values for exchange-traded derivatives, principally futures, are based on quoted market prices.

Realized gains or losses on Derivatives are recognized in the Statement of Operations with trading revenues. Fair values of exchange-traded futures are recorded in payable to broker dealers on the Statement of Financial Condition.

Cash — Cash includes cash on hand. As of December 31, 2025, the Company had cash accounts which exceeded federally insured limits and are therefore not subject to FDIC insurance.

Current Expected Credit Losses (CECL) —The Company individually assessed the current expected credit loss for assets in scope of ASU 2016-13 below.

Securities Purchased under Agreements to Resell

The Company participates in short-term resale agreements collateralized by government and agency securities. These transactions are reported as collateralized financing and are carried at cost with accrued interest within the Statement of Financial Condition. See *"Resale and Repurchase Agreements"* for more information.

To estimate expected credit losses on the resale agreements, the Company applied the collateral maintenance practical expedient by comparing the amortized cost basis of the resale agreements with the fair value of collateral at the reporting date. The counterparties are all financial institutions that the Company considers to be reputable and reliable, and the Company reasonably expects the counterparties will be able to continually replenish collateral securing the financial asset and does not expect the fair value of collateral to fall below the value of the resale agreements. The fair value of collateral, plus accrued interest, was approximately 100% of the related assets as of December 31, 2025, and the expected credit loss was immaterial.

Receivable from Broker Dealers

The Company's receivable from broker dealers includes amounts receivable from unsettled trades, including amounts related to futures and options on futures contracts, and cash deposits. The Company's trades and contracts are cleared through a clearing organization and settled daily between the clearing organization and the Company. Because of this daily settlement, the amount of unsettled credit exposures is limited to the amount owed to the Company for a very short period of time. The Company continually reviews the credit quality of its counterparties and has not experienced a default. As of December 31, 2025, the expected credit loss was immaterial.

Risks — Credit risk represents the potential financial loss that the Company would incur if a counterparty fails to meet its contractual obligation. The Company is engaged in various trading and brokerage activities with other financial institutions. The risk of default depends on the creditworthiness of the counterparty or issuer of the financial instrument. The Company periodically reviews the credit standing of each counterparty.

The Company derives a significant portion of its revenues from the underwriting of debt instruments of corporate and agency issuers. One of the issuers and counterparties that the Company engages with is a "Unit holder" defined as a shareholder or investor of the Parent. The Company performs underwriting services for the Unit holder and the Unit holder's affiliates and from time-to-time may hold investments in financial instruments issued by the Unit holder or the Unit holder's affiliates.

Resale and Repurchase Agreements — Transactions involving purchases of securities under agreements to resell (reverse repurchase agreements or reverse repos) or sales of securities under agreements to repurchase (repurchase agreements or repos) are accounted for as collateralized financings. It is the policy of the Company to obtain possession of collateral with a fair value approximately equal to or in excess of the principal amount loaned under reverse repurchase agreements. Collateral is valued daily, and the Company may require counterparties to deposit additional collateral or return collateral pledged when appropriate. The Company may also be required by counterparties to deposit additional collateral on a daily basis on sales of securities under agreements to repurchase.

Income Taxes — The Company is treated as a partnership for U.S. tax purposes. ASC No. 740, *Income Taxes*, requires the Company to determine whether a tax position has a greater than fifty percent likelihood of being realized upon settlement with the applicable taxing authority, which could result in the Company recording a tax liability that would reduce net income. The Company does not have any significant uncertain tax positions as of December 31, 2025, and is not aware of any tax positions that will significantly change during the next twelve months. The tax information for the years ending December 31, 2022, through December 31, 2025 remain open to examination by federal authorities under the statute of limitations. The years open to examination by state and other local government authorities vary by jurisdiction, but the statute of limitations is generally three to four years from the date the tax return is filed.

3. SEGMENT REPORTING

The Company has two operating segments: Fixed Income and Wealth Management Services. These operating segments are determined based on the internal structure and financial performance evaluation process. The Company has identified its CEO as the chief operating decision maker (CODM), who uses Adjusted Earnings for each operating segment to evaluate the results of the business, predominantly in the forecasting process, and to manage the Company. Additionally, the CODM uses excess net capital, which is not a measure of profit and loss, at the reporting segment level to make operational decisions while maintaining capital adequacy. The Company has a single reporting segment for external reporting purposes. Both operating segments are engaged in business as a securities broker-dealer facilitating the origination, distribution, and underwriting of fixed income and market linked products through the Company's tech enabled platform to a variety of institutional customers. Given the commonalities between the segments' product offerings, customer base, and method of distribution, the Company has aggregated the two operating segments into one reportable segment for external reporting purposes pursuant to ASC 280-10-50-11.

4. LEASES

The Parent has several operating leases for office space and office equipment. The Company determines if an operating lease exists at the inception of a contract and when the terms of an existing contract are modified. Certain lease expenses are allocated to the Company. Leases with an initial term of 12 months or less are not recorded on the Statement of Financial Condition. All other operating leases are recorded on the Statement of Financial Condition, with right of use assets representing the right to use the underlying asset for the lease term and lease liabilities representing the obligation to make lease payments. The lease liability and right of use asset are initially recognized on the commencement date. The lease liability is based on the net present value of the future lease payments. Net present value is calculated using the Company's incremental borrowing rate. The right-of-use asset is based on the lease liability and any deferred rent balances accumulated prior to the commencement date. The lease liability and right of use asset will subsequently be remeasured when an existing contract is modified, or any impairment is recognized. Lease expenses are recognized on a straight-line basis over the lease term.

The weighted-average remaining lease term was 4.3 years as of December 31, 2025, and the weighted-average discount rate was 4.6%.

The following table illustrates the maturities of lease liabilities related to operating leases:

Maturities of Lease Liabilities for the Years Ending December 31

2026	877,719
2027	802,472
2028	755,011
2029	777,662
2030	800,991
Thereafter	825,021
Total undiscounted lease payments	$ 4,838,876
Less: Imputed interest	(436,506)
Total lease liabilities	$ 4,402,370

The right of use asset is considered to be a non-allowable asset and the lease liability is considered to be aggregate indebtedness when calculating net capital. However, the right of use asset can be deducted from total non-allowable assets up to the amount of the corresponding lease liability per FINRA Regulatory Notice 19-08.

5. FAIR VALUE MEASUREMENTS

Securities owned and securities sold, not yet purchased, as of December 31, 2025, are as follows:

	Owned	Sold, Not Yet Purchased
Level 1		
Futures contracts	$ -	$ 43,126
Total Level 1	-	43,126
Level 2		
Corporate debt securities	3,106,174	-
U.S. Treasuries	-	16,325,939
Agency securities	88,276,929	-
Mortgage backed securities	4,105,587	-
Municipal Securities	14,876,504	-
Brokered certificates of deposit	3,263,176	-
Total Level 2	113,628,370	16,325,939
Level 3	-	-
Total	$ 113,628,370	$ 16,369,065

The Company held no Level 3 securities during the year ended December 31, 2025. There were no transfers between the fair value hierarchy levels during the year ended December 31, 2025.

ASC 820-10, *Fair Value Measurements and Disclosures* which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. ASC 820-10 applies to reported balances that are required or permitted to be measured at fair value under existing accounting pronouncements. Fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, ASC 820-10 establishes a fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets and the lowest priority to unobservable data. Under the standard, fair value measurements are separately disclosed by level within the fair value hierarchy. The three levels of the fair value hierarchy are described below:

- *Level 1* —Valuation of these instruments does not require a high degree of judgement as the valuations are based on quoted prices in active markets that are readily available.

- *Level 2* — Other significant observable inputs other than quoted prices in active markets (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

- *Level 3* — Significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments) that are supported by little or no market activity The Company does not have any financial instruments utilizing Level 3 inputs.

The following is a description of the valuation methodologies used for securities measured at fair value, based on the Statement of Financial Condition classification. The Company's assessment of the significance of a particular input to the fair value measurements in its entirety requires judgement and considers factors specific to the investment.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. A summary of the inputs used to value the Company's security positions as of December 31, 2025, were as follows:

- *Preferred equity securities and futures* — Based on quoted market prices in active markets.

- *Corporate debt, U.S. Treasuries and Agency securities* — Based on quoted market prices, prices for similar securities, or prices based on models using observable inputs. Pricing inputs include US Treasury rates, credit spreads, and observable trades from both the Trade Reporting and Compliance Engine developed by FINRA and dealers.

- *Mortgage-backed securities* — Based on quoted market prices, prices for similar securities, or prices based on models using observable inputs. Pricing inputs include U.S. Treasury rates, To-Be-Announced mortgage pool prices, credit spreads, and prepayment forecasts.

- *Municipal securities* — Based on quoted market prices based on bid and ask prices, observable trades, or quoted market prices based on bid and ask prices for securities of comparable quality, maturity, and interest rate.

- *Brokered certificates of deposit* — Based on quoted market prices, prices for similar securities, or prices based on models using observable inputs. Pricing inputs include U.S. Treasury rates, and credit spreads.

GAAP requires disclosure of the estimated fair value of certain financial instruments, and the methods and significant assumptions used to estimate their fair values. Certain financial instruments that are not carried at fair value on the Statement of Financial Condition are carried at amounts that approximate fair value due to their short-term nature and generally negligible credit risk. These instruments include cash, securities purchased under agreements to sell, short-term receivables and accrued interest receivables, securities sold under agreements to repurchase borrowings, accounts payable and accrued expenses.

6. MANAGEMENT AND LICENSING FEES

The Company has entered into an intercompany expense agreement (the "Agreement") with the Parent and affiliates, whereby the Parent and affiliates provides the Company with administrative, technology and management services and office facilities in exchange for a management fee determined in accordance with the terms of the Agreement. The Agreement was amended on September 1, 2023. As of December 31, 2025, $1,536,299 was unpaid and is included in payable to parent on the Statement of Financial Condition.

Under the same Agreement, the Company provides an affiliate broker dealer with administrative and management services in exchange for a management fee determined in accordance with the terms of the Agreement. The affiliate broker dealer is a wholly owned subsidiary of the Parent. Revenue related to this agreement is recognized monthly, once all performance obligations are complete. As of December 31, 2025, $4,000 was unpaid and is included in receivable from affiliate on the Statement of Financial Condition.

The Company has entered into technology platform licensing agreements (the "License Agreements") with an affiliate company. The affiliate provides the Company access to the firm's proprietary trading and sales platforms. These services are provided in exchange for a license fee determined in accordance with the terms of the License Agreements. As of December 31, 2025, $285,841 was unpaid and is included in Payable to Affiliate on the Statement of Financial Condition.

7. OFF-BALANCE SHEET RISK

The Company enters into various transactions involving derivatives and other off-balance sheet financial instruments. These financial instruments include futures, which are used to manage market risks. Market risk is substantially dependent upon the value of the underlying financial instruments and is affected by market forces such as volatility and changes in interest rates. Derivative transactions are entered into in an attempt to hedge other positions or transactions.

Futures contracts provide for the delayed delivery or purchase of securities at a specified future date at a specified price or yield. Futures contracts are executed on an exchange. The credit risk of exchange-traded financial instruments is reduced by the regulatory requirements of the individual exchanges. Cash settlement on futures contracts is made on a daily basis for market movements. The clearing organization acts as the counterparty to specific transactions and bears the risk of delivery to and from counterparties to specific positions. During the year ended December 31, 2025, the Company had an average monthly notional amount of $11,292,308 of derivative contracts outstanding. On December 31, 2025, the Company had a notional amount of $15,500,000 outstanding in derivative contracts, composed of 155 long interest rate futures contracts. Futures are recorded at fair value, which represents the difference between the contract price at the trade date and the closing price on the valuation date as reported on the exchange on which the futures contracts are traded. Futures contracts are classified as Level 1 within the fair value hierarchy.

The maximum potential payout for certain derivative contracts, such as written interest rate caps and written foreign currency options, cannot be estimated as increases in interest rates in the future could possibly be unlimited. Therefore, in order to provide information regarding the maximum potential amount of future

payments that the Company could be required to make under certain derivative contracts, the notional amount of the contracts has been disclosed.

The Company records all derivative contracts at fair value. The Company does not monitor its risk exposure to derivative contracts based on derivative notional amounts but rather on a fair value basis. Aggregate market risk limits have been established, and market risk measures are routinely monitored against these limits. The Company believes that the notional amounts of the derivative contracts generally overstate its exposure.

The Company has sold securities that it does not currently own and is, therefore, obligated to purchase such securities at a future date. The Company has recorded these obligations in the Statement of Financial Condition at December 31, 2025 at the fair values of the related securities and will incur a loss if the fair value of the securities increases subsequent to December 31, 2025. Substantially all of the Company's securities owned, at fair value at December 31, 2025 have been pledged as margin with the Company's clearing broker dealer.

The Company finances a significant portion of its securities transactions. Financing risks include the exposure the Company has to margin requirements in place with clearing brokers and counterparties, and the risk that ongoing financing arrangements may not be available in the future at rates which are desirable to the Company. Changes in margin requirements, including the related changes in fair value of investments, may result in the Company having to pledge additional margin or to sell securities to meet required margin. These activities may take place when market conditions are not optimal and may result in a realized loss on securities transactions and additional margin requirements with clearing brokers and counterparties.

8. REGULATORY REQUIREMENTS

The Company, as a registered broker-dealer, is subject to the Uniform Net Capital Rule ("Rule 15c3-1") under the Securities Exchange Act of 1934 and computes its net capital requirements under the basic method, which requires that the Company maintain minimum net capital equivalent to the greater of $100,000 or 6-2/3% of aggregate indebtedness, as these terms are defined.

At December 31, 2025, the Company had net capital, as defined, of $27,612,892, which was $26,314,888 in excess of its required net capital of $1,298,004. The Company's ratio of aggregate indebtedness to net capital was 0.71 to 1.

As an introducing broker-dealer, the Company does not take possession or control of cash or securities for customers and, therefore, claims exemption from the possession or control and reserve requirements based on Rule 15c3-3(k)(2)(ii) under the Securities Exchange Act of 1934.

9. RELATED PARTY TRANSACTIONS

The Company entered into a $10,000,000 revolving loan agreement on January 1, 2024, with its Parent with a maturity date of December 31, 2027. The loan bears interest at the three-month SOFR rate plus 100 basis points (4.87% at December 31, 2025). All accrued interest on the loan is due July 31 of each year until maturity or until paid in full. As of and for the year ended December 31, 2025, there has been no activity and there were no amounts outstanding related to this loan agreement.

10. COMPENSATION AND BENEFITS

Effective January 13, 2025, the Parent entered into a unit option award agreement as part of an employment agreement, which provided for the granting of options to purchase 2,750,000 units. During the year ended December 31, 2025 the Parent granted all 2,750,000 options, which vest over 5 years. Option terms were determined by the compensation committee of the Company's executive board. The estimated fair value of the awards totaled approximately $4,595,750 at the grant date.

Effective January 1, 2021, the Parent adopted the 2021 Unit Option Plan, which provides for the granting of options to purchase 1,250,000 units. The Board approved an increase to the number of options by 1,000,000 on May 5, 2022. During the year ended December 31, 2025, there were 190,000 option awards granted. As of December 31, 2025, there were 1,019,647 outstanding options under this agreement. Option terms were determined by the compensation committee of the Company's executive board. Unvested options are forfeited upon termination of service and the Company recognizes forfeitures as they occur. The estimated fair value of all outstanding awards totaled approximately $3,415,273 at the grant date.

Effective March 1, 2025, the Company modified 387,600 outstanding options by implementing a restrike at a price lower than the original exercise price.

Unit option activity for the year ended December 31, 2025, is as follows:

	Options	Weighted-Average Exercise Price
Outstanding — January 1, 2025	885,907	$ 9.75
Granted	2,940,000	$ 9.39
Exercised	-	$
Forfeited	(56,260)	$ 8.59
Outstanding — December 31, 2025	3,769,647	$ 9.48
Vested — December 31, 2025	789,664	$ 9.72
Exercisable — December 31, 2025	789,664	$ 9.72

11. COLLATERAL

Securities purchased under agreements to resell and securities sold under agreements to repurchase result from transactions with other brokers and dealers. These are accounted for as collateralized financing transactions and are recorded at the amount of cash collateral advanced or received. Securities purchased under agreements to resell transactions require the Company to deposit cash or other collateral with the lender. As of December 31, 2025, the Company advanced $16,429,728 of cash collateral with other brokers and dealers and received U.S. Treasury Securities with a market value of approximately $16,405,748 related to those transactions. Securities sold under agreement to repurchase transactions require the borrower to deposit cash or other collateral with the Company. As of December 31, 2025, the Company received $62,136,305 of cash and securities from other broker dealers with a market value of $64,108,465 related to those transactions. The Company monitors the market value of securities sold under agreements to repurchase and loaned on a daily basis, with additional collateral obtained or refunded as necessary. The market risk of the collateral posted is reviewed by the

Company's risk function, and these risks are managed using a variety of mechanisms including review of the type and grade of securities posted as collateral and the Company entering into offsetting agreements to hedge a decline in the market value of collateral posted. Repurchase agreements and associated collateral are classified as Level 2 within the fair value hierarchy.

Interest is accrued on securities purchased under agreements to resell and securities sold under agreement to repurchase and the related amounts are included in other assets or liabilities in the Statement of Financial Condition. Interest income and expense are recognized on an accrual basis and included in interest income and interest expense in the Statement of Operations.

The following tables present, as of December 31, 2025, the gross liability for securities sold under repurchase agreements disaggregated by classes of collateral pledged and by remaining contractual maturity of the agreements.

Collateral	**Repurchase Agreements**
U.S. Government Agencies	$ 62,136,305

Contractual Maturity

	Overnight and Open	**Up to 30 days**	**30-90 days**	**Greater than 90 days**	**Total**
Repurchase Agreements	$ 62,136,305	$ -	$ -	$ -	$ 62,136,305

The following table presents the gross and net repurchase agreements and futures contracts and the related offsetting amounts.

Offsetting of Financial Liabilities

	Gross amounts of recognized liabilities	**Gross amounts offset in the statement of financial condition**	**Net amounts of assets presented in the statement of financial condition**	**Fair value of assets transferred** *
Repurchase agreements	$ 62,136,305	$ -	$ 62,136,305	$ 64,108,465

Offsetting of Financial Assets and Derivative Assets

	Gross amounts of recognized assets	Gross amounts offset in the statement of financial condition	Net amounts of assets presented in the statement of financial condition	Fair value of assets transferred *	Net amount
Futures contracts	$ -	$ -	$ -	$ -	$ -
Reverse Repurchase agreements	16,429,728	-	16,429,728	16,405,748	23,980
Total	$ 16,429,728	$ -	$ 16,429,728	$ 16,405,748	$ 23,980

*The amount of collateral is limited to the total net exposure (prior to collateral) by counterparty.

12. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Company is involved in legal, regulatory and arbitration proceedings, including class actions, primarily concerning matters arising in connection with the conduct of its broker dealer activities. These include proceedings specific to the Company, as well as proceedings generally applicable to business practices in the industries in which it operates.

In the normal course of business, the Company enters underwriting commitments. There were no open transactions related to these underwriting commitments as of December 31, 2025.

13. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through the date the financial statements were available for issuance. In January 2026, the Company made a capital withdrawal of $2,000,000. No other events requiring disclosure or recognition were identified.

13. Net capital (Line 8 minus Line 12)			$ 26,652,067	3750

Name of Firm: INSPEREX LLC

As of: 07/31/26

Calculation of Excess Tentative Net Capital (If Applicable)

1. Tentative net capital	$		3640
2. Minimum tentative net capital requirement	$		12055
3. Excess tentative net capital (difference between Lines 1 and 2)	$		12056
4. Tentative net capital in excess of 120% of minimum tentative net capital requirement reported on Line 2	$		12057

Calculation of Minimum Net Capital Requirement

5. Ratio minimum net capital requirement			
A. 62/3% of total aggregate indebtedness (Line Item 3840)	$	826,554	3756
B. 2% of aggregate debit items as shown in the Formula for Reserve Requirements pursuant to Rule 15c3-3	$		3870
i. Minimum CFTC net capital requirement (if applicable) $ 7490			
C. Percentage of risk margin amount computed under 17 CFR 240.15c3-1(a)(7)(i) or (a)(10)	$		12058
D. For broker-dealers engaged in reverse repurchase agreements, 10% of the amounts in 17 CFR 240.15c3-1(a)(9)(i)-(iii)	$		12059
E. Minimum ratio requirement (sum of Lines 5A, 5B, 5C, and/or 5D, as applicable)	$	826,554	12060
6. Fixed-dollar minimum net capital requirement	$	100,000	3880
7. Minimum net capital requirement (greater of Lines 5E and 6)	$	826,554	3760
8. Excess net capital (Item 3750 minus Item 3760)	$	25,825,513	3910
9. Net capital and tentative net capital in relation to early warning thresholds			
A. Net capital in excess of 120% of minimum net capital requirement reported on Line 7	$	25,660,202	12061
B. Net capital in excess of 5% of combined aggregate debit items as shown in the Formula for Reserve Requirements pursuant to Rule 15c3-3	$		3920

Computation of Aggregate Indebtedness (If Applicable)

10. Total aggregate indebtedness liabilities from Statement of Financial Condition (Item 1230)	$	12,398,297	3790
11. Add			
A. Drafts for immediate credit $ 3800			
B. Market value of securities borrowed for which no equivalent value is paid or credited $ 3810			
C. Other unrecorded amounts (list) $ 3820			
D. Total additions (sum of Line Items 3800, 3810, and 3820)	$		3830
12. Deduct: Adjustment based on deposits in Special Reserve Bank Accounts (see Rule 15c3-1(c)(1)(vii))	$		3838
13. Total aggregate indebtedness (sum of Line Items 3790 and 3830)	$	12,398,297	3840
14. Percentage of aggregate indebtedness to net capital (Item 3840 divided by Item 3750)	%	46.52	3850
15. Percentage of aggregate indebtedness to net capital after anticipated capital withdrawals (Item 3840 divided by Item 3750 less Item 4880)	%	46.52	3853

Calculation of Other Ratios

16. Percentage of net capital to aggregate debits (Item 3750 divided by Item 4470)	%		3851
17. Percentage of net capital, after anticipated capital withdrawals, to aggregate debits (Item 3750 less Item 4880, divided by Item 4470)	%		3854
18. Percentage of debt to debt-to-equity total, computed in accordance with Rule 15c3-1(d)	%	0.00	3860
19. Options deductions/net capital ratio (1000% test) total deductions exclusive of liquidating equity under Rule 15c3-1(a)(6) and (c)(2)(x) divided by net capital	%		3852

Calculation of Excess Tentative Net Capital (If Applicable)

1. Tentative net capital	$		3640
2. Fixed-dollar minimum tentative net capital requirement	$		12062
3. Excess tentative net capital (difference between Lines 1 and 2)	$		12063
4. Tentative net capital in excess of 120% of minimum tentative net capital requirements reported on Line 2	$		12064

Calculation of Minimum Net Capital Requirement

5. Ratio minimum net capital requirement – Percentage of risk margin amount computed under 17 CFR 240.18a-1(a)(1)	$		12065
6. Fixed-dollar minimum net capital requirement	$		3880
7. Minimum net capital requirement (greater of Lines 5 and 6)	$		3760
8. Excess net capital (Item 3750 minus Item 3760)	$		3910
9. Net capital in excess of 120% of minimum net capital requirement reported on Line 7 (Line Item 3750 – [Line Item 3760 x 120%])	$		12066

1. Total ownership equity (from Item 1800)	$		1800
2. Goodwill and other intangible assets	$		12067
3. Tangible net worth (Line 1 minus Line 2)	$		12068

6. Commodity Differences		5740	5940	$	6140	$	6142	$	
7. Open transfers and reorganization account items over 40 days not confirmed or verified		5760	5960	$	6160	$	6162	$	
8. TOTAL (Lines 1-7)		5770	5970	$	6170	$	6172	$	
9. Lines 1-6 resolved subsequent to report date		5775	5975	$	6175	$	6177	$	
10. Aged Fails --to deliver		5780	5980	$	6180	$	6182	$	
--to receive		5785	5985	$	6185	$	6187	$	

NOTE A -- This section must be completed as follows:

1. The filers must complete Column IV, Lines 1 through 8 and 10, reporting deductions from capital as of the report date whether resolved subsequently or not (see instructions relative to each line item).
2. Columns I, II and III of Lines 1 through 8 must be completed only if the total deduction on Column IV of Line 8 equals or exceeds 25% of excess net capital as of the prior month end reporting date. All columns of Line 10 require completion.
3. A response to Columns I through IV of Line 9 and the "Potential Operational Charges Not Deducted From Capital-Note B" are required only if:
   A. The parameters cited in Note A-2 exist, and
   B. The total deduction, Line 8, Column IV, for the current month exceeds the total deductions for the prior month by 50% or more.
4. All columns and Lines 1 through 10 must be answered if required. If respondent has nothing to report, enter "0."

Other Operational Data (Items 1, 2 and 3 below require an answer)

Item 1. Have the accounts enumerated on Lines 5A through 5F above been reconciled with statements received from others within 35 days for Lines 5A through 5D and 65 days for Lines 5E and 5F prior to the report date and have all reconciling differences been appropriately comprehended in the computation of net capital at the report date? If this has not been done in all respects, answer No.

Yes	X	5600
No		5601

Item 2. Do the respondent's books reflect a concentrated position in commodities? If yes, report the totals ($000 omitted) in accordance with the specific instructions. If No, answer "0" for:

A. Firm trading and investment accounts	$ 0	5602
B. Customers' and non-customers' and other accounts	$ 0	5603

Item 3. Does respondent have any planned operational changes? (Answer Yes or No based on specific instructions.)

Yes		5604
No	X	5605

F. Other			6300 $	6500 $	6700 $ 6702
G. (Offsetting) Lines 5A through 5F			6310 $( )	6510 $( )	6710
TOTAL (Lines 5A-5G)			6330 $	6530 $	6730 $ 6732
6. Commodity Differences			6340 $	6540 $	6740 $ 6742
7. TOTAL (Lines 1-6)			6370 $	6570 $	6770 $ 6772

NOTE B - This section must be completed as follows:

1. Lines 1 through 6 and Columns I through IV must be completed only if:
   A. The total deductions on Line 8, Column IV, of the "Operational Deductions From Capital-Note A" equal or exceed 25% of excess net capital as of the prior month end reporting date; and
   B. The total deduction on Line 8, Column IV, , of the "Operational Deductions From Capital-Note A" for the current month exceeds the total deductions for the prior month by 50% or more. If respondent has nothing to report, enter “0.”
2. Include only suspense and difference items open at the report date which were NOT required to be deducted in the computation of net capital AND which were not resolved seven (7) business days subsequent to the report date.
3. Include in Column IV only additional deductions not comprehended in the computation of net capital at the report date.
4. Include on Lines 5A through 5F unfavorable differences offset by favorable differences at the report date if resolution of the favorable items resulted in additional deductions in the computation of net capital subsequent to the report date.
5. Exclude from Lines 5A through 5F new reconciling differences disclosed as a result of reconciling with the books of account statements received subsequent to the report date.
6. Lines 1 through 5 above correspond to similar lines in the “Operational Deductions From Capita-Note A” and the same instructions should be followed except as stated in Notes B-1 through B-5 above.

FREQUENCY OF COMPUTATION

29. Daily _____ 4332 Weekly _____ 4333 Monthly _____ 4334

30. If the reserve formula is computed daily, and the net capital requirement is computed under the alternative method, check the applicable aggregate debit items reduction percentage used:

3% _____ 12850 2% _____ 12851

**See Rules 15c3-1(a)(1)(ii) and 15c3-3(e)(3)(v). In the event the net capital requirement is computed under the alternative method, this reserve formula must be prepared in accordance with the requirements of paragraphs (a)(1)(ii) of Rule 15c3-1 and (e)(3)(v) of Rule 15c3-3, as applicable.

References to notes in this section refer to the notes to 17 CFR 240.15c3-1a.

State the market valuation and the number of items of:

1. Customers' fully paid securities and excess margin securities not in the respondent's possession or control as of the report date (for which instructions to reduce to possession or control had been issued as of the report date) but for which the required action was not taken by respondent within the time frames specified under Rule 15c3-3. Notes A and B . . . . . $ _____ 4586
   A. Number of items . . . . . _____ 4587
2. Customers' fully paid securities and excess margin securities for which instructions to reduce to possession or control had not been issued as of the report date, excluding items arising from "temporary lags which result from normal business operations" as permitted under Rule 15c3-3. Notes B,C and D . . . . . $ _____ 4588
   A. Number of items . . . . . _____ 4589

3. The system and procedures utilized in complying with the requirement to maintain physical possession or control of customers' fully paid and excess margin securities have been tested and are functioning in a manner adequate to fulfill the requirements of Rule 15c3-3 . . . Yes _____ 4584 No _____ 4585

Notes:

A--Do not include in Line 1 customers' fully paid and excess margin securities required by Rule 15c 3-3 to be in possession or control but for which no action was required by the respondent as of the report date or required action was taken by respondent within the time frames specified under Rule 15c3-3.

B--State separately in response to Lines 1 and 2 whether the securities reported in response thereto were subsequently reduced to possession or control by the respondent.

C--Be sure to include in Line 2 only items not arising from "temporary lags which result from normal business operations" as permitted under Rule 15c3-3.

D--Line 2 must be responded to only with report which is filed as of the date selected for the broker's or dealer's annual audit of financial statements, whether or not such date is the end of a calendar quarter. The response to Line 2 should be filed within 60 calendar days after such date, rather than with the remainder of this report. This information may be required on a more frequent basis by the Commission or the designated examining authority in accordance with Rule 17a-5(a)(2)(iv).

vmeyer@insperex.com

Vicki Meyer, CFA, brings deep knowledge of the fixed income markets to institutional investors. Her 30+ years of experience span a broad selection of asset classes, including corporate bonds, U.S. Agencies, mortgage-backed securities, municipal bonds, and certificates of deposit. She takes special interest in serving her clients' desires to achieve their goals. She joined InspereX (formerly known as Incapital) in 2010. InspereX is a leader in underwriting and distributing fixed income investments. Ms. Meyer earned a bachelor's degree from the University of Florida. She holds FINRA Series 7 and 63 licenses and is a CFA Charterholder as well as a member of the CFA Society of South Florida. In her free time, she can be found enjoying time cooking, golfing, doing yoga, and spending time with her husband, two daughters, and dog.

InspereX Sustainable Finance Overview

Since 2005, InspereX has been a leader in values-based investing for the individual investor.

In September 2014, the firm launched its impact investment platform, which provides issuers the opportunity to offer investment products across asset classes designed to allow a broad range of investors to align financial goals with personal values.

InspereX is a frequent contributor to financial articles, trade publications, roundtables, and panels discussing values-based investing, has held a position on the Socially Responsible Investing Committee at the Government Investment Officer's Association (GIOA), is a member of US SIF. InspereX also supports the UN's Sustainable Development Goals and "The Principles" - the International Capital Market Association's Green Bond, Social Bond, Sustainability Bond, and Sustainability-Linked Bond Principles.

InspereX Impact Underwriting & Distribution[1]

[1]Source: InspereX as of 12/31/2025

InspereX has underwritten and/or distributed over $4.6 billion of impact investments[1]

Current issuers include:

– Calvert Impact Capital

– Calvert Impact Climate

– Capital Impact Partners

– Century Housing Corp.

– International Finance Corp. (IFC)

– Local Initiatives Support Corp. (LISC)

CDFI Public Debt

There are approximately 1,400 certified Community Development Financial Institutions (CDFI).[2] Fifteen are S&P rated and ten have public debt outstanding.[3]

InspereX is the leader in CDFI debt underwriting, ranking #1 with about $1.65 billion in league table credit.[4]

CDFI issuers on the InspereX platform are Capital Impact Partners (S&P A+, Fitch A+), Century Housing Corp. (S&P AA, Fitch AA) and Local Initiatives Support Corp. (S&P AA-).[5]

USA-OV-0126

US Agencies Snapshot

September 14, 2026

Everyone Gets a 5.00%

The obvious update to our market is coupons continuing to move higher alongside the broader sell-off. The 5.00% coupon is now achievable across most structures in the five-year and three-year parts of the curve, and even on the shortest lockout structures in the two-year sector. What felt far out of reach just a few months ago is now available across a much broader range of structures. For accounts with cash to put to work, these levels are creating a very appealing entry point.

5.00% Coupons

Source: InspereX 9/14/2026

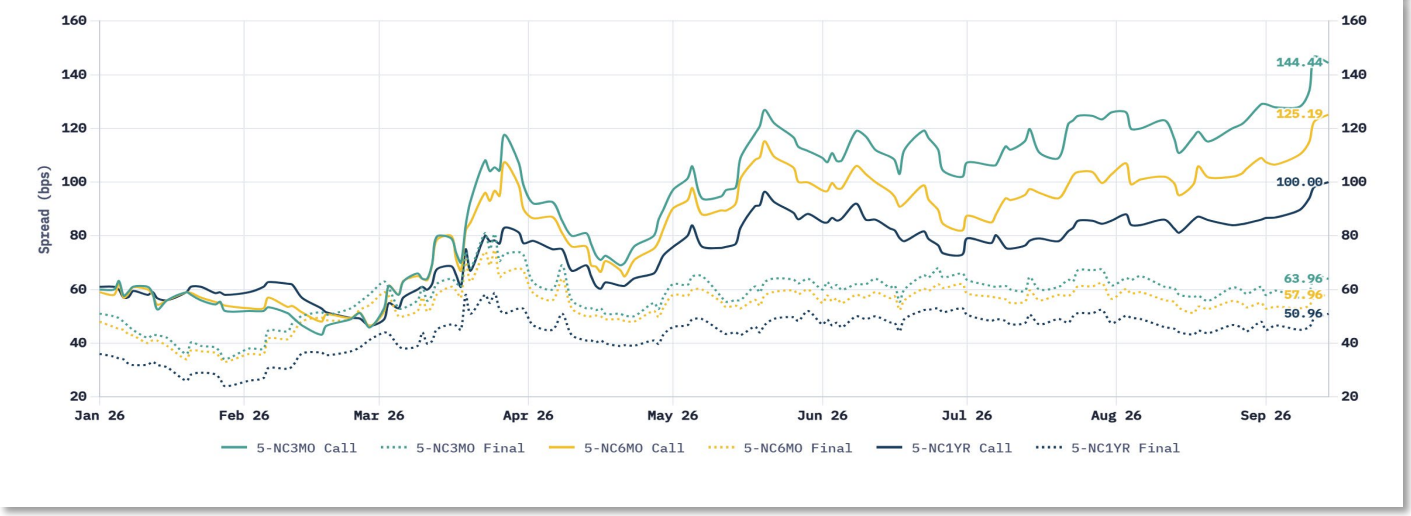

A Little Extra from Spreads

Everyone has been watching the fixed income sell-off, so the benefit from higher Treasury yields is obvious. The more pleasant surprise has been on the spread side, where callable agency spreads have remained wider as well. So, investors are getting a lot of help from higher underlying yields as well as a little extra help from spreads. The five-year callable graph below illustrates that nicely.

For financial professional use only. Do not distribute to individual investors.

InspereX

5YR Callable Spreads – YTD

Source: InspereX 9/14/2026

The main drivers of the spread widening have been the curve flattening, higher implied volatility, and wider swap spreads. In many respects, the move wider has been relatively controlled given the pace of the sell-off in rates. That has largely been attributed to the more muted response in implied volatility, especially when compared with the repricing we saw earlier in the year illustrated below in the MOVE fixed income volatility index. With a relatively new FOMC on deck that has produced large market moves around nearly all of its public appearances, there is certainly room for a surprise at this week's meeting. That said, the bond market has already done much of the work for the Fed, pricing in a hike this week and a path of roughly three to four total hikes over the next year. If the FOMC delivers something close to that outcome, both through this week's decision and the updated dot plot, the market could have less reason to continue repricing aggressively. That could allow rates to stabilize, implied volatility to move lower, and callable spreads to tighten as a result.

MOVE Index

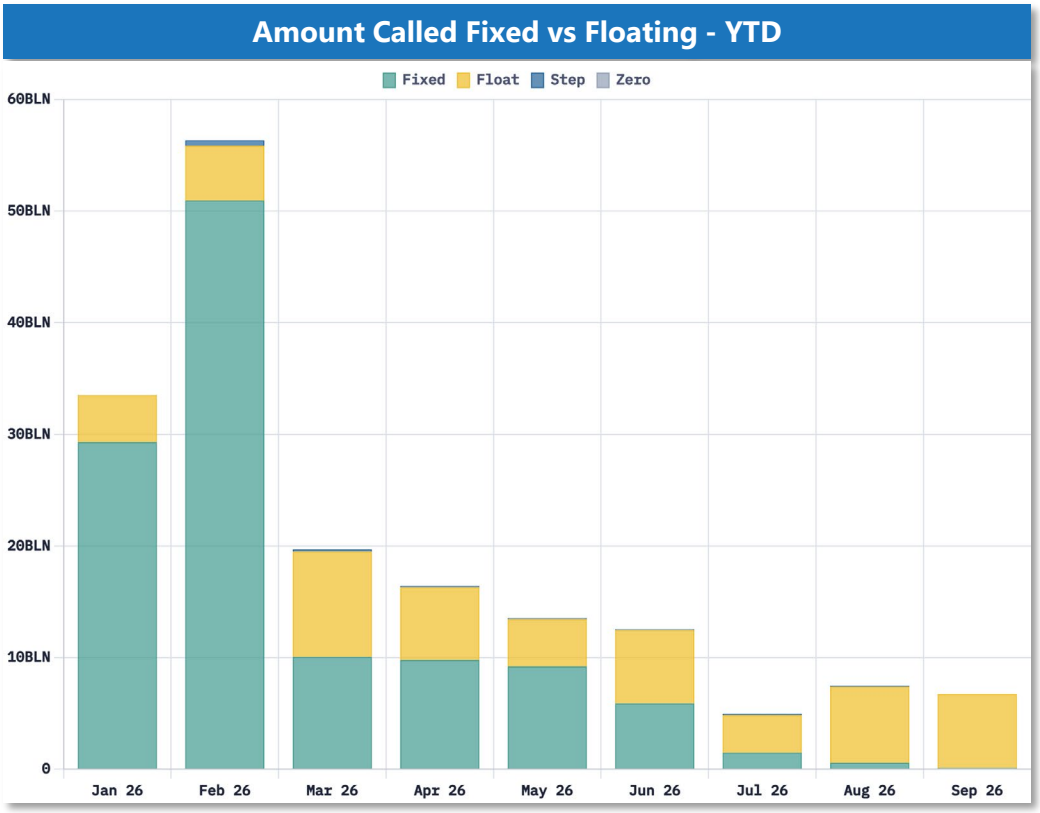

Source: InspereX 9/14/2026

For financial professional use only. Do not distribute to individual investors.

The Sad Song Plays On

Callable redemptions remain historically low following the 100+ bp move higher in rates over the past several months. What little is being called is also predominantly floating rate rather than fixed. That trend is likely to persist through the remainder of the year, especially with rates still biased higher amid a confluence of factors. The practical takeaway is that very little cash is being recycled back into the callable market, and that is unlikely to change meaningfully in the near term.

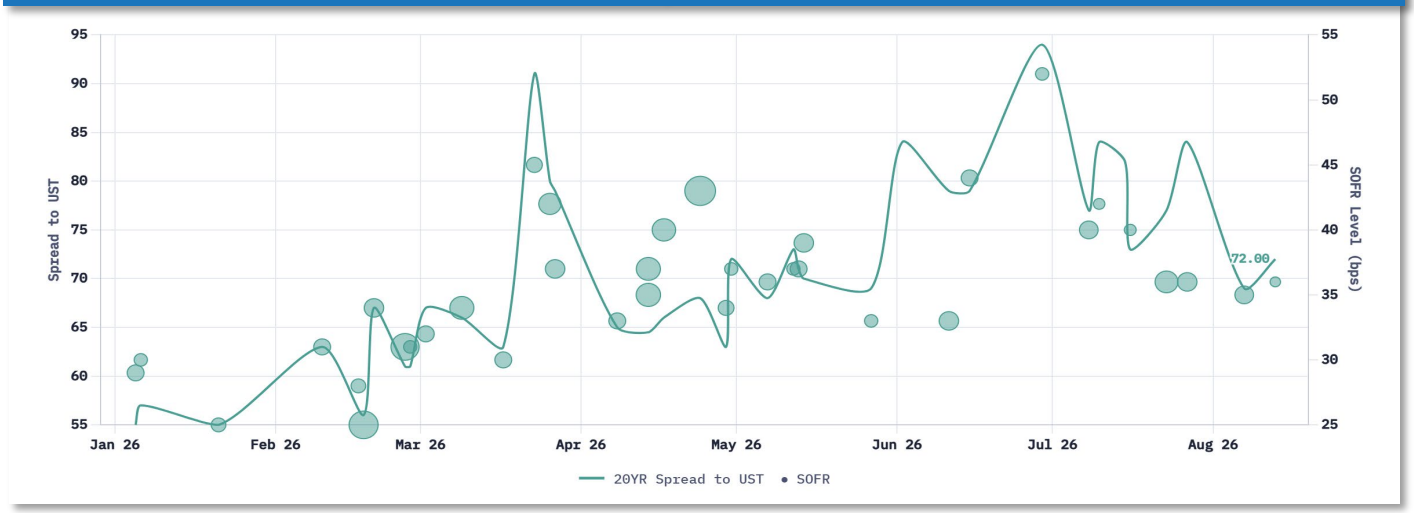

Source: InspereX 9/14/2026

Business as Usual in Auction Space

In times of stress, one of the easiest places to gauge sentiment is through callable auctions, where dealer discretion on bidding is a key driver of clearing levels. While there are certainly structures that have widened or failed more recently, the on-the-run structures that the GSE market primarily focuses on have continued to trade in an orderly fashion. That is likely due to manageable supply coming to market, along with decent demand for coupons north of 6.00% further out the curve. It feels like the limited amount of supply is roughly in rhythm with the limited amount of demand. The graph below shows both nominal spread to USTs and dynamic spread to SOFR. While the data is a bit noisy, likely due to auction nuances between YEL and YTM bonds, the broader theme is that spreads have remained relatively rangebound despite all the chaos taking place in other markets.
