Sheena Jackson
City of Carrollton
1945 E. Jackson Rd.
Carrollton, TX 75006

Dear Sheena,

Thank you for the opportunity to reintroduce InspereX LLC, a limited liability company owned by Incapital Holdings LLC. At InspereX, we understand the unique challenges of managing public funds. Our focus on safety, liquidity, and maximizing yield within investment policy guidelines aligns perfectly with the City of Carrollton's investment priorities. We have a strong capital base, six trading desks that take risk and hold inventory, and market-making services to help provide liquidity for your positions if needed. Partnering with us, you benefit from investment solutions particularly tailored to the needs of government entities as well as our commitment to concierge-level service including daily market updates.

InspereX's core product offerings are a natural fit for the City of Carrollton, as we are a top underwriter of U.S. Agency securities and the #1 ranked underwriter for new-issue callable agencies in 2026. Our underwriting success is supported by a broad distribution platform serving public funds, broker-dealers, investment advisors, and institutional asset managers nationwide. This unique market presence provides valuable insight, robust order flow, and deep investor-issuer connectivity that ultimately benefits our public fund clients through strong execution and access to new opportunities. We are also highly active in bringing new-issue bullet agencies to market for date-specific portfolio needs. As a full-service public fund broker-dealer, we offer Agencies, U.S. Treasuries, Treasury Bills, Agency Discount Notes, Supranationals, and municipal bonds.

It would be an honor to once again serve the City of Carrollton, as we did previously under our former name, Incapital. Following our 2021 merger with a technology company and subsequent rebranding to InspereX, we have expanded the resources and capabilities available to our clients. In addition to traditional broker-dealer services, the City would have no fee access to BondNav®, our proprietary cloud-based fixed income marketplace and best execution platform, providing visibility into thousands of live offerings across asset classes and significantly enhancing access to market opportunities.

Sincerely,

Vicki Meyer
