InspereX

Mr. Joseph Vasquez
State of New Mexico, Office of the Treasurer
2055 South Pacheco St, Ste 100 & 200
Santa Fe, New Mexico 87505

Dear Mr. Vasquez,

Thank you for the opportunity to reintroduce InspereX LLC, a limited liability company owned by Incapital Holdings LLC. At InspereX, we understand the unique challenges of managing public funds. Our focus on safety, liquidity, and maximizing yield within investment policy guidelines aligns perfectly with State of New Mexico Treasurer's investment priorities. We have a strong capital base, seven trading desks that take risk and hold inventory, and market-making services to help provide liquidity for your positions. Partnering with us, you will benefit from investment solutions particularly tailored to the needs of government entities.

InspereX's main product offerings are a natural fit for the State of New Mexico. We are the #1 ranked issuer of new-issue callable agency securities in 2026 and are highly active in bringing new-issue bullet agencies to market for date-specific portfolio needs. As a full-service public fund broker-dealer, we offer Agencies, U.S.Treasuries, Treasury Bills, Agency Discount Notes, and Supranationals. For counties seeking investments with a social impact component, our underwriting platform provides access to innovative opportunities, including AA-rated affordable housing bonds. New Mexico State Treasurers office will also benefit from our strong relationships with the government-sponsored enterprises (GSEs) and our commitment to delivering responsive, concierge-level service.

I have been an institutional fixed income sales representative over three decades in all fixed income asset classes. I am well acquainted with the types of challenges you face, and I have read and will follow your Investment Policy. Although no two public funds are alike, I have a thorough understanding of safety of principal, liquidity and maximizing yield within investment policy guidelines. I appreciate the chance to show you how InspereX can add value to your portfolio.

Sincerely,

Dan Larsen

Senior Vice President, Institutional Sales
